New or Newly Eligible Employees
on the Benefits Administration System

A new employee, when employed full time by a participating employer, must be added by the employer through a New Hire event on the Benefits Administration System. This event should be run as soon as possible, but no later than 60 days after the date of initial eligibility. A new employee’s ability to elect his/her benefits online is dependent on that employee being added to the Benefits Administration System in a timely manner. If the employee’s eligibility date is more than 60 days prior, you must submit a paper enrollment form to CPS.

Late enrollment provisions apply if the New Hire event is run after the 60-day period. Once the New Hire event is run, the employee will have an event to complete on his/her Benefits Management System to finalize elections.

Entering a New Employee:

Before you begin, ask the employee if he or she has previously worked for an employer that offered the Plans. If so, please contact CPS to initiate a transfer of the employee’s benefits record.

1. Log in to your Employer Portal and click the Benefits Management Quick Link to access the Benefit Administration System.
2. Add the employee.

Transfer and Rehires
to the Benefits Administration System

In order to maintain a consistent eligibility and history, each employee has a unique account in the Benefit Administration System, which is shared throughout the Synod. At any given time, only one employer has access to view and update an employee. Concordia Plans manages the transition between employers to ensure a smooth benefit experience. An employee enrolling at a new participating employer should complete the appropriate online events, within 60 days of the initial eligibility date to enroll in the Concordia Plans through their new employer. If the employee’s eligibility date is more than 60 days prior, you must submit a paper enrollment form to CPS.

This section only applies to employees with active coverage under one or more of the Concordia Plans effective October 1, 2018, and later. All other employees should be entered through the New Hire process.

If the employee was most recently enrolled at your organization, follow steps 2-5 below.

**Entering a Previously Enrolled Employee:**

1. Contact CPS to initiate the transfer.
   - If you are aware that your new employee was enrolled at another LCMS Ministry that offers the Concordia Plans, please contact CPS to move the employee to your account. Please provide the anticipated first day worked at your organization in your communication.
   - If you are unaware of the employee’s previous CPS history, follow the instructions for a new or newly eligible employee. If the employee already has a record with Concordia Plans, you will receive an on-screen message notifying you that the Employee with the same SSN already exists. If you receive this message, contact CPS to begin the transfer process.

2. Initiate the New Hire/Newly Eligible Event.
   - After CPS has notifies you of the completed transfer, access the member’s profile by searching for their name or SSN.

An employee acquiring a new dependent (spouse or child) must make that change on the Benefits Management System on the Member Portal – coverage of dependents is not automatic. A newly eligible dependent must be enrolled within 60 days of the life event to ensure coverage is not delayed or denied in any of the Plans. If the dependent’s eligibility date is more than 60 days prior, you must submit a paper enrollment form to CPS. If the addition of a dependent results in a change in class of coverage, the change in contributions will normally be effective the first day of the month coinciding with or following the date of the event, provided that we are informed of the change within the time deadlines noted above.

Both employees and employers have the ability to initiate events to add or remove dependents for qualifying life events. The steps below outline the Employer's steps to initiate and complete events on behalf of the employee.

Duties and Salary Changes
in the Benefits Administration System

If an employee’s salary changes during the year due to a change in the employee’s duties, use a Duties and Salaries event in the Benefits Administration System on the Employer Portal. This event can also be used to make non-benefit related updates, such as changing an employee’s title. If the employee’s duties and salary change date is more than 60 days prior, you must submit a paper enrollment form to CPS. Lost income adjustment fees will apply to duties and salary increases entered after 60 days.

Please note that Concordia Retirement Plan pension and Concordia Disability and Survivor Plan contributions are based on the employee’s salary as of Jan. 1 of the calendar year.

Entering a Duties and Salary change:

1. Initiate the Event.
   - Event Type = Employer — Duties and Salaries.
   - Event Date = Day of the change.
   - Click Save.

2. Enter Attributes.
   - ACR-Annual Base Salary: Enter the new annual salary amount here.
   - The fields for ACR-Annual Cash Housing Allowance, ACR-Annual Utility Allowance, and ACR-Annual Cash Home Provided Allowance must be completed. Enter 0 if these are not offered.
   - ACR-Annual total ACR should equal the sum of the four prior fields.
   - Roster/Non-Roster indicator: Select the field that applies.
     > Note: All non-rostered employees, volunteers and board members should be marked “Lay.”
     Click Initiate. This step completes the event; no additional action is required.

Note: If the salary changes is due to an increase or decrease in the employee’s hours, use the appropriate Employer — Increase in Hours or Employer — Decrease in Hours event.
Termination (including Retirements) in the Benefits Administration System

When a worker terminates his/her employment for any reason, including retirement or transfer to another employer, use the Termination of Employment event to report the change within 30 days of the worker’s termination. Late reporting (beyond 30 days from the last day worked) may require payment to the Concordia Health Plan beyond the worker’s employment change date. You, as the current employer, will be billed through the end of the month in which the employee’s last day worked occurs (e.g., transferring or terminating full-time April 1, billed through April 30).

Concordia Retirement Savings Plan (CRSP) 403(b) contributions are not stopped automatically when a worker terminates employment. Automatically reoccurring CRSP contributions must be stopped directly through 90 Degree Benefits (formerly EBSO) at https://crsp403b-90db.com.

Please do not use this event if your active worker has passed away. To report the death of an active worker, please call Concordia Plans at 888-927-7526 or complete the Online Death Notification Form.

   • If the employee is eligible for extended CHP coverage (limited or retiree), he/she will receive a letter with additional details.

Ending Member’s CHP Due to Other Coverage in the Benefits Administration System

An employee or a dependent who is no longer eligible for coverage must make that change in the Benefits Management System on the Member Portal; discontinuation of coverage of dependents is not automatic. The removal of a dependent must happen within 30 days of the event; otherwise, CHP coverage will be terminated at the end of the month in which CPS is notified, and contributions are due through that date. If the deletion of a dependent results in a change in class of coverage, the change in contributions will normally be effective the first day of the month coinciding with or following the date of the event, provided that CPS is informed of the change within the time deadlines noted above.

Both employees and employers can initiate events to terminate coverage for qualifying life events. The steps below outline the Employer’s steps to initiate and complete events on behalf of the employee.

2. Remove coverage
   - Click **Elections** to view the employee’s coverage tiers and covered dependents.
   - Click the Concordia Health Plan – Medical link.
   - To remove the **employee** from coverage, click **Select in the Decline Coverage column**.
