- You may contribute a combination of pre-tax and after-tax Roth contributions up to the annual maximum amount allowed under the Internal Revenue Code. For the 2021 calendar year, the annual maximum contribution is \$19,500 or 100% of your base salary, whichever is less.
  - If you will be age 50 or older this calendar year, you may elect an additional Catch-up contribution amount. For the 2021 calendar year, the maximum Age 50 Catch-up amount remains at \$6,500.
  - For more information on Catch-up contributions, visit our website at [ConcordiaPlans.org/CRSP](https://www.concordiaplans.org/CRSP).
- This Salary Deferral Agreement is a written agreement between you and your employer whereby you direct your employer to reduce your pay by a specific amount. Your employer then remits this amount to your CRSP account. You may change or cancel the amount of your salary deferral contributions at any time, as allowed under the terms of the Plan. Your current Salary Deferral Agreement will continue until you notify your employer otherwise.
- How much should you contribute? The answer depends on your current financial situation, and you may wish to speak with a Fidelity Guidance Representative or other trusted financial professional to take into consideration your entire profile. As a general guideline, it is recommended to have a combined (your contributions plus any employer contributions) retirement savings rate of 15% of pay. But keep in mind, even small amounts add up over time. Electing a percentage of your salary to be deferred into a retirement account is an easy way to make sure your savings rate is relative to your salary.
